Introduction

Philatelic design markers have been in use as “tools of the trade” by American perfin collectors for over fifty years. Initially, The perfin design markers for the Czech lands, made to accommodate the illustrations in Vojtech Maxa’s first catalog in 1972, were without any other pertinent information.

This edition of perfin design markers, for the Bohemia and Moravia Protectorate, includes the following information:

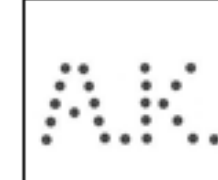

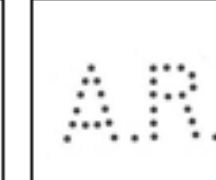

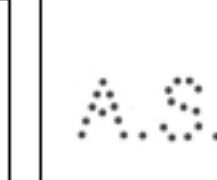

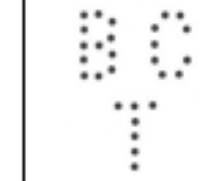

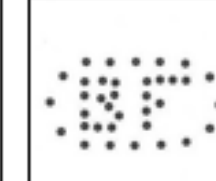

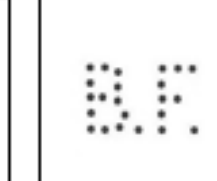

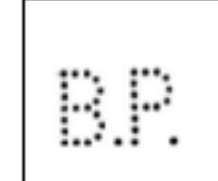

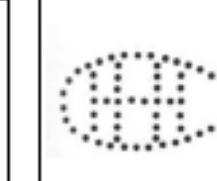

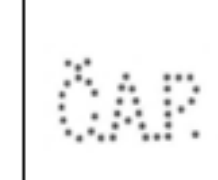

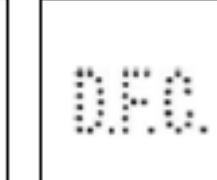

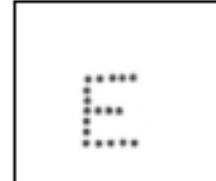

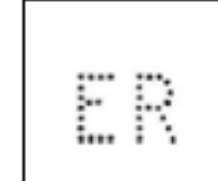

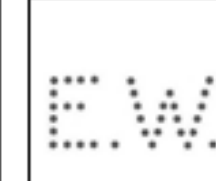

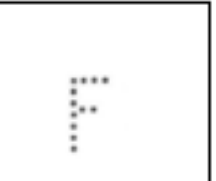

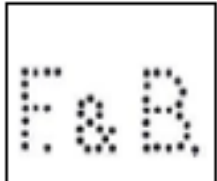

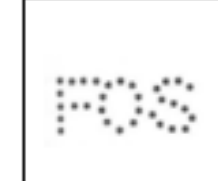

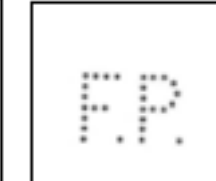

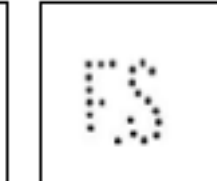

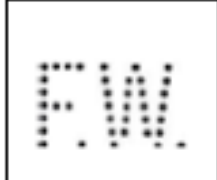

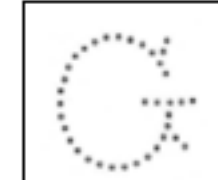

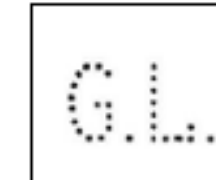

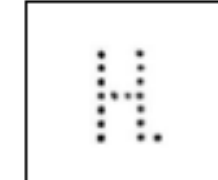

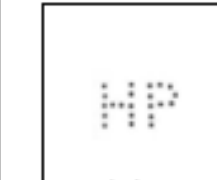

- 1) an illustration of the design : taken from the Katalogová část section of Monograph 24 published by Pofis in 2022 and are NOT TO SCALE as presented in the Marker;
- 2) the design number (A12) : found in Monograph 24 Perfiny z uzemi Československa [Perfins in the Territories of Cechoslovakia];
- 3) the scarcity rating (A) : A/common-F/rare scale presented in V. Maxa’s 1987 KATALOG PERFINŮ;
- 4) the value rating specific to the stamps of The Protectorate (P 48): taken from Monograph 24.

Collectors who use these markers are advised NOT to try to validate patterns that look similar to the “unaided eye” as they have been scaled to fit the space available on the Marker. True design/pattern verification can be accomplished only by using the designs found in Monograph 24. The majority of them also can be found in earlier Czechoslovak catalogs.
