

Perfin Design Cross-references: Slovak, Czech, Hungarian, Austrian catalogs

This chart includes a listing all of the perfin designs, identified by the authors in their Slovak catalog (1997), to have been on stamps of cities in the territory of Slovakia under Hungarian rule (prior to 1918), in the First Republic of Czechoslovakia (1918-1938/9), and in the Slovak State (1938/9/1945). If a city is in the Hungarian column it refers to the Czech entry; the dates of use are post Austro-Hungarian Empire.

Dates in the Slovak catalog column are mostly for Austro-Hungarian empire time-frame UNLESS for the independent Slovak state (1939-45).

The Czech and Hungarian columns are also taken from the Slovak catalog and verified through V. Maxa's 1987 catalog of Czech Territories and I. Lente's Hungarian catalog of 2007. Some dates vary as the Hungarian catalog gives a general range of dates for many of their entries (i.e. 1900-1919).

Where the Czech column is missing a date, it is the same as the Slovak column. In some cases, the perfin corresponds to a Slovak city ONLY during the time of the First Republic so the date is included in the notes column (i.e. C:1922-32).

Only a few perfin designs are identified in the Austrian catalog due to companies having branches throughout the Austro-Hungarian Empire prior to 1918.

** if only one scarcity rating, it is placed after the dates of usage (i.e. C:1920-39; F).
